

RADU NEACĂ

SOFTWARE ENGINEER

ABOUT ME

I hold a **Bachelor's degree** in **Computer Science**, and I have about a **year and a half** of experience in the software development industry. I am currently working as a **Software Engineer** at **BETFAIR ROMANIA DEVELOPMENT SRL**, where I collaborate in building scalable and reliable applications. I am passionate about creating efficient digital solutions, continuous learning, and working in environments that combine innovation with teamwork.

WORK EXPERIENCE

Software Engineer

AUGUST 2025 - PRESENT

BETFAIR ROMANIA DEVELOPMENT SRL

- Built and maintained web application using **React** and **Spring Boot**.
- Contributed to frontend features for the **sign-up** and **payments** flows in **React**, including a **multi-step wizard** and field validation.
- Worked with **AI-powered** development tools and **MCP servers**.
- Participated in **code reviews** and **Agile** ceremonies, ensuring code quality and consistent delivery.

Software Engineer

JULY 2023 - NOVEMBER 2023

ISERVIT CBR SRL

- Developed web applications using **Java** and **React**.
- Implemented authentication and authorization with **JWT**, **OAuth**, and **cookies** to secure user sessions and manage access control.
- Built real-time notifications using **WebSockets** and **RabbitMQ**.

PROJECTS

Pushure — Fitness Platform (Microservices)

Java, Spring Boot, React, TypeScript, SQL, Docker, AWS, Redis

- Built a fitness platform from scratch using **microservices architecture**.
- Applied the **database-per-service** pattern with independent **PostgreSQL** databases and an **API Gateway** as the single entry point.
- Implemented **JWT authentication** with **HttpOnly cookies** and role-based access, using **Redis** to invalidate revoked tokens.
- Containerized the services with **Docker** and deployed on **AWS EC2** over **HTTPS** (Let's Encrypt), with a fully automated GitHub Actions **CI/CD** pipeline (commit to production in ~10 min).

Pancreatic Tumor Segmentation — Medical Imaging AI

Python, PyTorch, CNN, U-Net, ResUNet, NumPy

- Trained three **CNN architectures** (U-Net, ResUNet, Attention U-Net) in **PyTorch** for automated pancreatic tumor segmentation from **CT scans**.
- Built an end-to-end pipeline for **6,500+ DICOM** images, from preprocessing to GPU-accelerated training.
- Achieved a **0.90 Dice coefficient** and **0.82 IoU**, benchmarked across **accuracy, precision, recall, and F1-score**.

EDUCATION

2024-2026

Babeş-Bolyai University

Master's degree in E-Business

2020-2024

Technical University of Cluj-Napoca

Bachelor's in Computer Science

PROGRAMMING SKILLS

- Java
- Spring
- Python
- SQL
- .Net
- C#
- React
- CSS/HTML
- JavaScript
- MCP
- Docker
- AWS

INTERESTS

- Traveling
- Sports
- Self-Improvement
- Healthy Lifestyle

LANGUAGES

- English (B2)
- Romanian (Fluent)
